Military's Threat Conditions (Threatcons) defined

Threatcon Normal applies when there is no discernable threat of terrorist activity, but the possibility always exists. Under these conditions, only a routine security posture, designed to defeat the criminal threat, is warranted. The minimum Threatcon for U.S. Army commands is NORMAL.

Threatcon Alpha applies when there is a general threat of terrorist activity against personnel and/or installations, the nature and extent of which is unpredictable, and circumstances do not justify full implementation of Threatcon Bravo measures. Commands must be capable of maintaining Threatcon Alpha measures indefinitely, with only limited impact on Normal operations.

Threatcon Bravo applies when an increased or more predictable threat of terrorist activity exists. Commanders must be capable of maintaining the measures of this Threatcon for several weeks without causing undue hardship to personnel, subsequently affecting operational capabilities or aggravating relations with surrounding communities.

Threatcon Charlie applies when an incident occurs or intelligence is received indicating some form of terrorist action against personnel and installations are imminent.

Threatcon Delta is normally declared as a localized warning when a terrorist attack has occurred or intelligence indicates likely terrorist action against a specific location.

Presidio access control phase-in begins

A Department of Army directive has prompted the Presidio of Monterey and Army installations around the globe to implement vehicle access control measures Sept. 1.

Those measures have already placed Army soldiers at Presidio gates to control vehicle access onto the Presidio between the hours 6 p.m. and 6 a.m. and closed the Pine Street gate. Starting Nov. 1, the measures move into the second of the three-phase program and will control access between the hours of noon and 6 a.m. The program's third phase will begin Jan. 1 and will control access onto the Presidio 24 hours a day.

Guards at each of the gates will be looking for the now required Department of Defense decal on vehicles entering the Presidio. If vehicles do not display the decal, they will be required to obtain a visitor's pass at either the Franklin Street gate or the Pvt. Bolio

Street gate by presenting a valid driver's license, current vehicle registration and proof of insurance.

Military personnel, civilian staff and faculty and official contractors can obtain the permanent DOD decal by supplying the information to their directorate's decal representative or the Presidio of Monterey Police Department located at the Ord Military Community.

Internet dial-up access now available to dorms

Dormitory residents may feel the remoteness of Presidio of Monterey from time to time, but they may feel more in touch now with the introduction of the Sprint/AAFES Dormitory Resident Phone Services Internet Access. Sprint GSD, in agreement with AAFES, recently began offering all dorm residents with Sprint telephone

service the opportunity to access the World Wide Web.

In an effort to provide dorm residents with better quality phone and Internet service, AAFES and Sprint are joining together to offer the most cost-effective method of service to their consumers. The Internet access takes advantage of the Sprint phone switching equipment located on the Presidio of Monterey, rather than bringing in dial-up access from an outside service located 20 or more miles away. This new service now allows Sprint to offer Internet connection directly through the phone system from on base.

Service members can now dial a four-digit extension, which provides a higher quality dial-up connection than can be obtained through conventional dial-up services.

Bob Bevil of World Wide OnLine, the subcontractor of Sprint, who handles the technical hardware and software to run the system, said most Internet users should experience between a 48- to 50-kilobytes-per-second connection when using the service.

For dorm residents who are interested in signing up for the service the monthly access charge is \$19.95 and the set-up fee of \$24.95 is waived until Sept. 30. Individuals interested can call Lisa Young, the on-site representative, at (831) 333-3000.

Tips from the POM Police Department

Elder abuse takes varied forms

Senior citizens currently represent four and a half percent of California's population. By the year 2020, over 16 percent of the state's population will be 60 years of age or older. Many of these people will retire comfortably and lead happy and robust lives. However, many of America's elderly are not experiencing the relaxation of retired life. Many are being physically, psychologically or financially exploited; some by strangers, some by acquaintances and some even by their own family members. Gerontologists consider this type of exploitation to be elder abuse.

Elder abuse crosses all social, economic and ethnic lines — any elderly person could become a victim. It is important to become aware of the possibility of elder abuse and to be able to recognize signs that might suggest its occurrence. This awareness will enable us to help neighbors, friends or family

members who may be in trouble.

Abuse of the elderly usually falls into the following categories:

- Physical abuse
- Psychological/Emotional abuse
- Financial abuse
- Physical neglect

Fortunately, most older persons do not experience this type of treatment. Nevertheless, elder abuse is a frightening and real issue. Knowing what to look for and who to contact if you suspect abuse will help you do your part to correct the situation. By being alert to situations that could lead to abuse of an elderly person, you may be able to prevent a serious injury or even save a life.

If you live with or care for an elderly person, you know the responsibility can be overwhelming at times. One way to cope is to be sure to take time away from your responsibilities on a regular basis. This will help to alleviate stress and the

potential for abuse and give you a chance to put everything into perspective.

California law mandates elder care custodians, medical and nonmedical practitioners or employees of elder protective agencies to report suspected abuse. The following is a list of elder protective agencies that you can contact if you are uncertain about reporting suspected abuse:

- The state Department of Social Services
- A county probation department
- A county welfare department
- A police or sheriff's department
- A nursing home ombudsman

For more information on elder abuse contact the Presidio of Monterey Police Department Crime Prevention Officer at 242-7868.

This special program is co-sponsored by Army Family Advocacy and the Presidio of Monterey Chaplains.
